D. Sir:

The enclosed was cut from a recent newspaper issued + I send it for the purpose of asking what of truth if any there is in it + what way, if any, such spurious coins may be detected.

We don't usually notice the sensational paper reports of counterfeiters, but this goes into seemingly truthful particulars.

There is considerable gold in circulation & held in amounts, but there does not seem to be any excess of the coins -

Respectfully

Dr. Sir:

The enclosed was cut from a recent newspaper issue & I send it for the purpose of asking what of truth if any then is in it & what way, if any, such spurious coin may be detected.

We don't usually notice the sensational paper reports of counterfeits, but this gave into seemingly by truthful particulars.

There is considerable gold in circulation & hold turnabouts, but there does not seem to be any excess of the fives.

Respectfully,
H.H. Hunn
